

### Taxable Benefits and Allowances – facilitated by Ceridian & the Canadian Payroll Association (CPA)

#### Topics covered:

As a payroll professional or business owner, you have a responsibility to follow government prescribed rules relating to the accurate assessment and reporting of taxable benefits. You must also communicate these rules, along with the associated risks of non-compliance, to various individuals within your organization to ensure compliance.

While many taxable benefits are well-documented and explained in government publications, there are still many grey areas that require the attention of payroll. During this webinar, we will cover basic taxable benefits such as company paid benefits, RRSP and Life Insurance, and the reporting requirements on the T4 / RL-1.

#### Prerequisites:

- High comfort level with the internet
- General knowledge of payroll legislation

#### Attend if you are:

- responsible for processing payroll
- required to understand up-to-date government legislation related to payroll

#### Facilitation:

- Web based training that is interactive in that participants can verbally communicate with the facilitator – ask questions, etc. using the telephone.
- Attendees learn via the web from their own computer in the convenience of their own office.
